Professional Summary

Python Developer with experience in building web applications using Python, Django, HTML, and CSS. Strong foundation in SQL and database management. Developed machine learning and deep learning projects with improved model accuracy and performance. Passionate about writing clean, efficient, and maintainable code.

Work Experience

Python Full Stack Developer Intern

Feb 2026 – Jun 2026

- Developed full-stack web applications using Python, Django, HTML, CSS, JavaScript, MySQL, and Django ORM. Worked on REST APIs, authentication, session management, responsive UI design, testing, and deployment.

Projects

Sentiment Analysis Web App (Machine Learning + Django)

Technologies: Python, Scikit-learn, NLP

- Developed a Sentiment Analysis model using Logistic Regression and Naive Bayes for text classification.
- Applied text preprocessing, TF-IDF feature extraction, and parameter tuning, achieving around 90% accuracy on test data.

Potato Leaf Disease Detection (CNN Model)

Technologies: Python, TensorFlow, Keras, CNN, Image Processing

- Developed a CNN-based Potato Leaf Disease Detection system with 92% accuracy using deep learning, image preprocessing, and data augmentation techniques.

RaithaMitraMart – Multi Vendor Agriculture E-Commerce Platform

Technologies: Python, Django, HTML, CSS, JavaScript

- Built a full-stack agriculture e-commerce website using Django with seller management, product handling, order tracking, authentication, and responsive UI features.

Professional Billing System

Technologies: Python, Django, HTML, CSS, JavaScript

- Built a web-based billing management system using Python Django with invoice generation, GST calculation, PDF download, and receipt printing features.

Skills

Programming Languages: Python

Frontend: HTML, CSS, JavaScript

Backend and Databases: Django, REST APIs, Authentication & Authorization, MYSQL

Core Concepts: Object-Oriented Programming (OOP)

Additional Skills: Machine Learning Basics, Deep Learning (CNN)

Education

APS College of Engineering, Bangalore (CGPA: 8.80)

2022 - 2026

Vishwa Manava PU College, Chitradurga (Percentage: 88%)

2020 - 2022

Certifications

- Web Development Certification – Edunet Foundation
- Python full stack development inter – Skyllx Technologies.
- Python & Django Fundamentals – Kodeest Technologies pvt ltd
